***We Provide Service for Most Pets
dogs, cats, rabbits, birds, reptiles,
snakes, guinea pigs, hamsters,
gerbils & other pocket pets and exotics***

Our Emergency service is staffed by David Boyd, DVM and Miranda Bertram, DVM, medical support and management staff, either on site or on call as we operate on a 24 hour basis starting Fridays at 7pm through Mondays 8am to include 24 hour holidays. No appointment is necessary but calling ahead is greatly appreciated.

This emergency service is designed to speed access to medical care for your pet when unexpected critical care is needed and regular veterinary care is unavailable during weekends and holidays.

We will fax *and* mail a Summary of Treatment, including any lab results, to your regular veterinarian following your emergency visit. We will also call to insure your doctor has received this information for your pet's records and any subsequent visits. Our hope is to establish a working relationship with referring veterinary hospitals.

Fees & Payment

Our Weekend Emergency Service offers availability for the unexpected; therefore fees for emergency diagnostics and treatment are more expensive than general practice. Fees are based on time, skills, equipment and instrumentation required for each case. Estimates are provided when treatment recommendations are established.

An ER Exam Fee is due at intake and a 50% deposit is due prior to recommended services being administered; full payment of remaining balance is due when services are rendered.

Payment accepted by Cash, Check, Visa/MasterCard/American Express or Care Credit

Returned Check Fee is \$35
