

# WELLNESS Packages and Terms

Dr. Winters believes that preventative medicine is just as important as routine medical care. The following packages are designed to not only diagnose any possible ailments, but also serve as an annual reference for any future diagnostic tests. The health of a pet should not only be addressed when it is ailing, but rather when it is thriving.

### Services Specific to FELINE Wellness Package

**FPR** – Annual combination vaccine includes Panleukopenia, Rhinotracheitis and Calicivirus. These diseases are still affecting our pets and can even cause death.

**Rabies Vaccine** – We recommend annual one year vaccine. Three year vaccinations are available, but due to a higher incidence of cancer at the injection site we do not recommend three year Rabies vaccinations for our feline patients.

## Services Included in Both Wellness Packages

**Physical Exam** – Vitals are taken on age, weight, pulse, respiration and temperature. Exam includes evaluation of eyes, ears/nose/throat, teeth, skin, heart & lungs, abdomen, genito-urinary area and lymph nodes for assessing overall condition and progression of health.

**General Health Profile** – Allows us to assess the function of many internal organs such as the liver and kidneys and determine if preventative measures should be taken.

**Complete Blood Count** – Allows us to determine if a patient is dehydrated, anemic, or has an infectious or inflammatory condition.

**T4** – Allows us to determine if a patient is suffering from hypothyroidism (dogs) or hyperthyroidism (cats); metabolic disorders that can affect your pet's health.

**Urinalysis** – Allows us to evaluate the urine for infection, inflammation, or crystals. A urinalysis may also allow us to evaluate your pet's kidney function.

**Stool Check** – Allows us to determine if your pet has intestinal parasites, some of which cannot be seen with the naked eye.

**\*FULL PAYMENT is DUE at the TIME of PACKAGE PURCHASE\***
